

WEST BEND PUBLIC LIBRARY

COLORS YOUR WORLD

The West Bend Public Library offers a diverse collection of materials for our community. Access to resources and programs for all abilities continues to evolve and improve.

E-BOOK ADVANTAGE

COVID continues to affect library circulation. Physical materials checked out has decreased but circulation of downloadable eBooks and eAudiobooks continue to rise. They are very convenient and accessible 24/7.

SUMMER FUN

Our community was very excited for the Summer Reading Program to be in person events. We offered weekly Maker Monday programs as well as the Summer Reading Programs to kids ages 4- 12 years There were creative arts and STEM projects.

FAMILY-ORIENTED

The weekly community scavenger hunts returned this summer. We had great participation and lots of friendly competition. We heard through the grapevine we were the hot topic at morning coffee! The librarians were challenged the final week of summer, and we were very impressed with the time commitment that families put in each week.

GRANT PROJECTS

The Library received a PACGDC grant for meeting room improvements with new tables purchased and a chair. Several grants from local agencies sponsored the activities for the summer reading program

GOALS FOR 2022

ARPA funds will be spent on meeting room technology. Sidewalk repair project is on our list. Outreach with the elementary students has returned and more in person programming is planned.

Thank You!

Thank you for your continued support of the West Bend Public Library
