# NEW FROM E. LOCKHART,

THE AUTHOR OF TIKTOK PHENOMENON AND  
#1 NEW YORK TIMES BESTSELLER *WE WERE LIARS!*

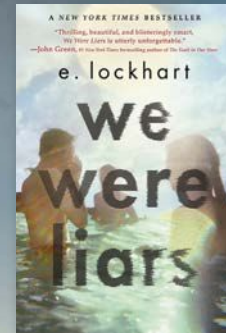

The thrilling prequel to the TikTok phenomenon and #1 *New York Times* bestseller *We Were Liars* takes readers back to another summer, another generation, and the secrets that will haunt them for decades to come.

A windswept private island off the coast of Massachusetts. A hungry ocean, churning with secrets and sorrow. A fiery, addicted heiress. An irresistible, unpredictable boy. A summer of unforgivable betrayal and terrible mistakes.

Welcome back to the Sinclair family. They were always liars.

# Hello Darkness

*Hello Darkness: My doctor said, "Son, you will be blind tomorrow."*

Sanford D. Greenberg

9781637582749 | Paperback, \$16.00

June 2022 | 240 pages | Post Hill Press

Based on the memoir *Hello Darkness, My Old Friend*, featured on the *Today Show* and in *People* magazine.

## PRAISE FOR HELLO DARKNESS, MY OLD FRIEND

"From the first page to the last, I was captivated by Sandy's bright mind, ready wit, and indomitable spirit." —[Ruth Bader Ginsburg](#), Associate Justice of the United States Supreme Court, 1993-2020

"Sandy is my gold standard of decency. I try to be his cantor, the tallis that embraces him." —[Art Garfunkel](#), recording artist, winner of eight Grammy awards, inductee of the Rock and Roll Hall of Fame

"How devastating it would have been to be told at such a young age that you would never see again. What will power it would have taken to paddle upstream against such a strong current. And how encouraging it is to know it can be done, because Sanford Greenberg did it—with a little help from his friends, but we all need that." —[Margaret Atwood](#), author of *The Handmaid's Tale* and other novels, two-time winner of the Booker Prize

A junior at Columbia University on a full scholarship, Sandy had just started to see the world open up to him. But instead of his plans for a bright future, he now faces a new reality, one defined by a cane, a companion dog, jobs limited to his blindness.

In the depth of his new darkness, Sandy faces a choice—to play it "safe" or return to Columbia to pursue his dreams. With the loving devotion of his girlfriend (and now wife) Sue and the selflessness of his best friend, Art Garfunkel, and through his own unyielding determination, Sandy breaks the chains of blindness, graduates as president of his class, and forges a life of exceptional achievement.

### ON THE COVER

Prince Jones is the guy with all the answers—or so it seems. At 17, he has his own segment on Detroit's popular hip-hop show, *Love Radio*, where he dishes out advice to the brokenhearted.

Prince has always dreamed of becoming a DJ and falling in love. But home and job responsibilities mean that the only romances in his life are the ones he hears about from his listeners. Until he meets Dani Ford.

Dani isn't checking for anybody. She's focused on her future plans, but her college essay keeps tripping her up and acknowledging what's blocking her means dealing with what happened at that party a few months ago. And that's one thing Dani can't do.

When the romantic DJ meets the ambitious writer, sparks fly. Prince is smitten, but Dani's not looking to get derailed. She gives Prince just three dates to convince her that he's worth falling for. Three dates for the love expert to take his own advice, and just maybe change two lives forever.

## Luvvie Ajayi Jones

Shortly after Luvvie Ajayi Jones' book *Professional Troublemaker: The Fear-Fighter Manual* was published, Jones started hearing from parents. A popular blogger, Jones had written about tackling fears, speaking one's truth and living life audaciously, and parents who'd read the book reached out saying they were sharing Jones' message with their children. That led to Jones writing *Rising Troublemaker: A Fear-Fighter Manual for Teens* (Philomel Books, May 2022). *Growing Minds* spoke with Jones about her follow-up book.

**Growing Minds:** Tell us more about what inspired you to share your message directly with teenagers.

**Luvvie Ajayi Jones:** A lot of parents who read *Professional Troublemaker* felt like their kids needed to hear the message that they can live an audacious life by being themselves in all ways and doubling down on seeing what makes them different as their superpower. Many people also contacted me saying, "I wish I had heard this when I was younger" or "When I was growing up, this would have been game changing for me."

Through these messages, I realized this is information that teenagers need to hear, and not in 10 or 15 years. Right now. Young adults are the true troublemakers. They're at a point in their lives where who they are could be insulted, abused, and bullied out of them. I want them to hear the message that they deserve to really embody their authenticity, they deserve to show up as who they are. They deserve to run after the things that feel big, that feel scary. This is the book I would have loved to have read when I was 15 or 16. This is

the book that would've served as an affirmation to younger Luvvie that "You got this."

I think it's really important for teenagers to hear this affirmation, to hear that they can do big things, dream audaciously, build squads, and be too much. This book is the permission slip teenagers might need to really live the incredible lives that are waiting for them.

**GM:** How is your message resonating with teens?

**LAJ:** I have nieces, nephews, and godchildren who are teenagers. Also, middle school and high school teachers have emailed me that they showed their students my TED talk. What I'm hearing resonating with them is the idea that their fear is real and feeling fear is natural, so they shouldn't feel like they are somehow wrong for being afraid of the big things. My message tells them that it's okay to be different. It also reminds them that they have power in their voice, and they should use it for the greater good. I think young people are learning and hearing these things in

ways we adults did not when we were growing up, and that's inspiring.

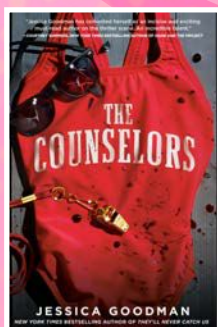

**GM:** Describe your approach to writing this book.

**LAJ:** The difference in my writing is I really brought myself back to thinking about what I really needed to hear in my teenage years. But *Rising Troublemaker* has my full auntie energy. I really want young people to understand that adults don't have it all figured out. We, as grownups, are still trying to figure life out, too. And we've made a lot of mistakes along the way. Our path was really hard, and what we now know should make theirs easier, if we pass on the lessons. I hope this book loans young people courage, and makes them feel seen, heard and affirmed.

## Brittney Cooper

In her children's book, *Stand Up! 10 Mighty Women Who Made a Change* (Orchard Books, August 2022), writer, teacher and public speaker Brittney Cooper inspires readers through her stories of 10 powerful Black girls and women who made a difference. Featuring vibrant illustrations, the book includes well-known legends such as Rosa Parks, and modern-day heroes such as Bree Newsome, whose actions led to the removal of the Confederate flag from the South Carolina state house grounds. *Growing Minds* spoke with Cooper about her inspiring new work.

**Growing Minds:** Tell us about the inspiration behind *Stand Up!*

**Brittney Cooper:** In my work as a gender studies professor, I write about powerful Black women who made a change on race and gender issues from the 19th century to the present. But I never want knowledge of these women's lives to be limited to adults. When I read about Rosa Parks in a middle grade biography of MLK as a fourth grader, my perspective was forever shifted. I wanted little girls and young people to see this history and to know that they can be impactful in changing the tough conditions they see in their communities, even as children.

**GM:** What was your approach to writing the book?

**BC:** I wanted this book to feel light and lyrical and fun, despite its weighty subject matter. In particular, I wanted Black girls to see themselves represented in its pages, shown through the beautiful portraits Cathy Ann Johnson has drawn. But I also want all children who read this to see the Black

women and girls in their lives as people with something meaningful to contribute, even as they also understand and own these figures with pride, too.

**GM:** How did you decide whom to include as the 10 mighty women?

**BC:** The choices were tough. There have been so many phenomenal Black women and girls across the ages. But I focused on a mix of both Black women and girls, across different centuries, from different places, and who did work in a wide variety of fields — education, law, the church, environmental activism, civil rights and politics.

**GM:** Of the women and traits described in *Stand Up!*, what are some of the characteristics that resonate with you, in particular, and how are they significant?

**BC:** I picked women who were personally significant to me, like Ida B. Wells, a firebrand antilynching crusader whose fiery conviction inspires my own, and Mari Copeny, a Black girl who refused

to take no for an answer in her insistence on safe drinking water. Mum Bett had not seen others petition for their freedom, but she knew that freedom was her birthright. We all need never forget that. More than that, all these fierce gals have moxie, and moxie is what we need for these times.

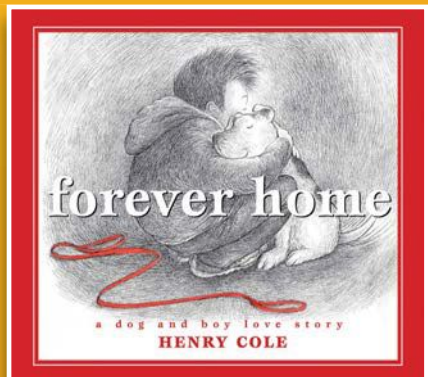

**GM:** Talk to us about the demand or need for this book.

**BC:** We are facing a season of acute turbulence as a country, and children can sense it too. I think children deserve to be engaged respectfully as people who can help us to change the world now, and as people who will lead the world in the future. This book, I hope, invites them into a conversation about all the ways we can make change happen, beginning with the conditions that shape our everyday lives.

## Ryan La Sala

After Mars' twin sister tragically dies, the genderfluid Mars heads off to the elitist sleep-away camp where his sister stayed, in Ryan La Sala's novel, *The Honeys* (Scholastic Press, May 2022). In this suspense-filled novel, Mars seeks out his sister's friends and discovers something is hunting him. *Growing Minds* talked with La Sala.

**Growing Minds:** Why write *The Honeys*?

**Ryan La Sala:** I am constantly hoarding information I find interesting and a little mystical without ever really knowing when I'll get to use it. Then suddenly something in me shifts, some beam of light pierces my subconscious, and like a room of mirrors, an entire world lights up. That's how *The Honeys* manifested as an idea. It arrived within me, all at once. I've always been fascinated by bees. Did you know that a single teaspoon of honey is the life's work of 12 bees? And that a jar of honey is accomplished by bees who, in their journey from flower to flower, fly a distance that easily circumvents the entire earth? Imagine, the entire world fitting into a jar. That, to me, is some IRL magic.

It was the title itself that pulled everything else into focus. I heard a man refer to a group of young girls as *honeys*, coveting them for both their sweetness and potential for consumption. I wondered about such a group of girls named *The Honeys*, but in my mind they weren't just sweet and consumable. In my mind, the way society dismissed them was a convenient camouflage for a secret that was anything but sweet.

Growing up, I wanted to know those girls. Without really understanding what it would cost and even knowing it might be dangerous, I desperately wanted to be a Honey. That tension between giving up safety to survive authentically became the main character, Mars.

**GM:** You say this world is more of a home than anything you've inhabited

**RLS:** While the camp in *The Honeys* is fictional, it's pieced together from my own childhood spent at similar camps, and on adventures out in the wilderness with my family. I've always loved the woods, but now I live in a huge city, so writing about Aspen did feel like falling backwards into these nostalgic, summery memories filled with light and cricket-song and that ever-present sense of looming melancholy, because you know it all has to end.

It's not just the world, though. It's Mars as well. As a teen, I was super queer and constantly had a target on me. I suffered for my flamboyance, but also found great joy and power in it, and ultimately it

was my fluidity that helped me forge a very strong sense of identity, confidence and durability. I gave all that pain and power to Mars.

**GM:** You say writing *The Honeys* changed you. How?

**RLS:** This book is about some of my greatest fears, and to write them down I needed to be able to handle them. I'm not talking about intellectualizing my fears. It's more like, *I'm a zookeeper stepping into the tank of a deadly animal and hoping it was just hungry enough to do a trick for treats, but not hungry enough to eat me alive in front of an audience of children.* I'm different now, because besides figuring out how to handle my fears, I had to write them in a way that is hopefully effective for a reader.

# SUCCESSING WITH SUMMER READING

Kids who read during the summer can avoid the summer slide. By reading they can maintain, even improve, their reading skills! Public Library Summer Programs make a significant difference to a community and to a child.

# Summer Reading Incentive Prizes

Does your Summer Reading Program include giving away books?

In addition to borrowing books from the public library, children need to have their own books at home. The titles in our **Title Source 360 2022 Summer Reading Incentive Prizes** category support your efforts to provide each child with a high-quality, engaging book to take home as a reward for participating in your program.

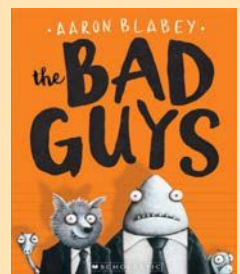

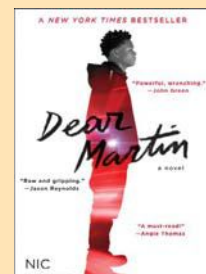

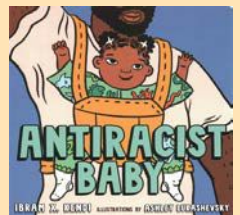

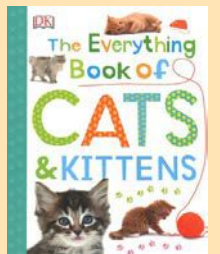

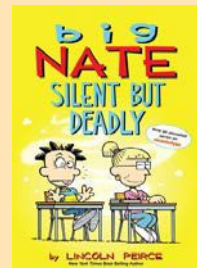

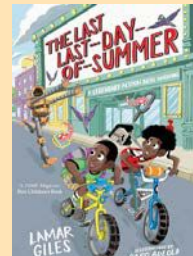

If your plans include purchasing a large number of books to give away as summer reading incentives, you are eligible for a special discount and supporting program materials.
