Dear Friends Board Members,

Attached please find updated bids from Smart Technology Team Solutions and NorthStar Electric for the purchase and installation of the technology needed to complete our community room project. (Technology is not included in what the general contractor will provide, and had been budgeted separately.)

I had also requested a bid from Carey's Electronics (who could provide both equipment and installation) on February 8th and have not heard back.

The electrician's bid is the same as budgeted. The technology items have fluctuated in price just a bit (some higher / some lower), and I added a laser pointer / clicker, as the laptop will be in a fixed location. Overall, with tax included, the updated bid for the tech items is \$54.34 higher than we'd budgeted (the clicker accounts for \$47.98 of that).

You may decide the following:

- direct me to more aggressively seek additional bids (and give ideas of vendors)
- make a motion and vote on this set of bids
- other ideas?

The time has come to line up these final details, which is exciting! I hope to have a proof of our donor wall from Amy's Sign Design to pass along soon, as well.

Thank you,

Tena

-
- Dorothy: I move that we accept these bids and move forward.
 - Dawn: I will second.
 - Pam: I vote Yes to accept these bids.
 - Lyle: My vote is yes.
 - Becky: I vote yes on the technology
 - Kim: I also vote yes
 - Lili: I vote yes, as well

- Kathy (via phone): I vote yes
- Joan: I vote yes
