Dear Friends Board Members,

Attached please find a proof of the donor wall image laid over the space to give you an idea of proportion against the wall. I've also taken a photo of the physical sample Amy's Sign Design provided of a 3-dimensional leaf in a cherry finish. Both the trunk and multi-sized leaves will be made of thinly-sliced wood. The price will run \$2,500-\$3,800.

Shown on the image are donors at the \$100 level and above. Lili and I had originally looked at a sample with \$500 and above, and decided the tree looked better with more leaves, and setting it at \$100 allows us to recognize more donors. Note that we can add leaves at any time.

Please respond with your thoughts and/or votes when you are ready.

Thank you!

Tena

Replies:

- Cheryl: Tena, I think the donor tree looks great. I like the ability to add more donor leaves as needed. I vote in favor of this donor wall proof.
- Dawn: I like this!
- Joan: Will the leaves and tree be about the same color? Could different kinds of wood be used or stained for the donors to give it more color?
- Tena: Thanks for your question. Amy did bring a sheet of colors to show us, and there was a leaf done in a lighter wood tone than the one you see here, as well. The lighter tone didn't stand out enough against our paint color, but the one I sent along all three of us agreed looked very nice against it. I regret that the poor lighting in the community

room right now didn't allow us to get an image of the paint color with the wood slice in front in a way that shows its true appearance.

The trunk will be several shades darker than the leaves, as depicted in the proof, and will also be made of wood. I do have the wood sample piece and a 12x12" sample of our paint color that I could show you if you wanted to stop by and look at it.

- Lyle votes yes
- Lili: I vote yes
- Dorothy: If we need a motion to approve I will make it. But I am in favor of this.
- Joan: I vote yes
- Pam: I vote Yes. Very neat idea!
- Kathy: I vote yes
- Kim: I vote yes
